

Unisys respects your privacy and personal information.

Although the Unisys Recruiting process will differ based on the role you are applying for and the country where the role is based, in all cases, you will have the opportunity to interact with multiple associates of Unisys. Following are things Unisys will **never** do:

- Unisys will not ask you to set up a Yahoo messenger account (or similar account) for interview purposes.
- Unisys will not ask you to pay for computer equipment with personal funds with eventual reimbursement.
- Unisys will not ask you for your bank account information during the recruitment process.
- Unisys will not send you a cashier's check.
- Unisys does not engage in piece work employment.
- Unisys will not offer you employment without an official offer letter **and** proprietary statement.

If any of these things occur, be aware you are dealing with a scam.
