

## Driving Faster Processing of Payments via an Integrated Payments Network Throughout Colombia

### **The Business Challenge.**

Enable online government and commercial payments (i.e. taxes, social security, utilities, services, merchandise) from any bank.

### **The Solution.**

Unisys, in partnership with a regional company, provided a centralized and customized payment solution including hardware, software, security and consulting services; Unisys developed a de facto standard that allows the integration of financial institutions to the government and commercial sector for payment transactions, using a Payment Service Provider.

### **Results and Benefits.**

- Increased customer use of online payments to 15 million monthly transactions
- Improved customer experience through convenience in making payments
- Reduced branch operations costs with more transactions being conducted through digital channels
- Improved services and cash collection for merchants and government institutions

“With this service, we are improving the quality of life of Colombians, allowing them to make payments anytime and anywhere, helping the government and the companies to increase their collections and sales.”

**Gustavo Vega**  
CEO, ACH Colombia SA
