

## Protecting Millions of Citizens Through Safer Traffic Conditions

### **The Business Challenge.**

Provide citizens, driving schools, health clinics and government employees with secure access to online records, including driver and vehicle registry information, and collect associated revenue while managing regulation and compliance needs.

### **The Solution.**

Unisys ClearPath Forward® technology and services to implement Data Exchange, production job scheduling automation, as well as identity and access management security specifically for ClearPath Forward.

### **Results and Benefits.**

- Improved citizen satisfaction through identity theft protection, and ability to perform driver-related services in the comfort of their own home or preferred location
- Reduced the number of traffic accidents and deaths by partnering with other agencies, for example the police, to perform checkpoint data validation of drivers' and vehicle licenses
- Increased opportunities to realize revenue collection
- Achieved agility to meet evolving legislative requirements

“Unisys has been a strong partner to DETRAN/BA for 30+ years. The ClearPath Forward technology has continued to deliver the reliability, security, scalability and agility to allow us to provide excellent service and safety to millions of drivers throughout Brazil.”
