

Ensuring Price Stability and the Soundness of the EU Financial System

The Business Challenge.

Maintain price stability by safeguarding the value of the euro currency, and contribute to the safety and soundness of the banking system and the stability of the EU financial system.

The Solution.

Unisys Cloud and Infrastructure Services, including data center, network management and network security services; Digital Workplace Services, including end user computing support services for 6,500 devices, service desk and field engineering services; all services based on ITIL framework and delivered from Europe.

Results and Benefits.

- Increased focus of ECB internal staff on specialized tasks and improved operational efficiencies through consistent, standardized support services
- Reduced support costs by improving management of IT resources and leveraging effective operational models
- Enhanced resilience and mitigation of future risks

“Our responsibilities and tasks are essential for contributing towards the stability of the EU financial system. As a strategic partner, Unisys delivers secure, dynamic and flexible services that enable us to meet increasing demand and support innovation.”

Glenn Scott
Head of Division DG-IS/IOS
European Central Bank
