

Providing Exceptional Patient Care at the Forefront of Innovation in Medical Science

The Business Challenge.

Increase focus on making major medical breakthroughs and invest in state-of-the-art diagnostic treatment equipment and plans to expand patient services and facilities.

The Solution.

Unisys Cloud and Infrastructure Services including consultation, design, acquisition and implementation of network and security products and services leveraging Unisys' partnership with Cisco; design and implementation of remote network management and 24x7 monitoring support services, including maintenance support for over 500 networking, security and storage devices.

Results and Benefits.

- Enabled exceptional patient care through continuous infrastructure availability
- Created efficiencies that significantly reduce IT expenses

"We rely on Unisys for network and security expertise and solutions that provide information integration, flow, accuracy and availability which continuously enriches and protects our patient environment."

Walter J. Fahey
Maimonides Senior Vice President of Management Information Systems and CIO

"The Unisys infrastructure technology and services are both efficient and elegant, allowing Maimonides to remain at the leading edge of healthcare IT innovation."

Gabriel Sandu
Chief Technical Officer
Maimonides Medical Center
