

Delivering Modern, Responsive Services to Citizens

The Business Challenge.

Provide secure, effective and efficient services for 190,000+ citizens and city employees.

The Solution.

Unisys Infrastructure Transformation Services, including data center consolidation, modernization of the public safety infrastructure and Dell EMC compute and storage.

Results and Benefits.

- Increased reliability of utility, traffic and public transportation services
- Minimized time to resolve issues related to power outages via a modern responder system
- Improved protection of citizens and police officers by enabling more transparency through use of body cameras

“For over 30 years, Unisys has supported every aspect of our IT infrastructure-related operations. Their partnership with Dell EMC has enabled the City to evolve with blossoming data storage requirements associated with modern IT era.”

Data Center Administrator
