

## Inventing Therapies That Have a Life-Transforming Impact on Patients' Health

### **The Business Challenge.**

Accelerate the drug discovery and development process to repeatedly bring new medicines to patients.

### **The Solution.**

Unisys Digital Workplace Services, including comprehensive end user services (endpoint, security, asset management, mobility management, management of the 0365 environment, service desk and field engineering services) for ~10,000 employees across the US and Europe; data center managed services and cloud support; service management via ServiceNow®, staff augmentation to support the AWS environment.

### **Results and Benefits.**

- Improved ability and speed of bringing new medicines to market
- Achieved consistency in positive end-user experience
- Gained a plan to strategically move applications to the cloud

“Helping people through improved medicine is our mantra. Developing innovative technology and pursuing research that drives the drug development process is a key priority. We trust Unisys to provide consistent and effective support so we continuously deliver important advances to patients and shareholders.”

**Office of the CIO**
