

# Securing Enterprises, Service Providers and Government Organizations Globally

Success Story

## Business Challenge

Maintain and grow market share as one of the leading providers of cybersecurity software, appliances and services.

## Solution

Unisys Digital Workplace Services, including field engineering services across ~50 countries; services include global project management office, logistical management, courier services and on-site technician support.

## Results and Benefits

- Improved customer service through consistent, quality services across multiple geographies
- Positioned for growth into new markets
- Enhanced employee productivity

*“We empower our customers with seamless protection across their networked, application, cloud and mobile environments. For more than a decade, Unisys has enabled us to expand our services globally while offering the best performance and cost value in the industry.”*
