

Standing Ready to Immediately Recover From Ransomware Attacks

Success Story

Business Challenge

Provide a secure environment that prepares students to reach their full academic potential; in particular, effectively address the increase in disruptions from ransomware.

Solution

Dell EMC PowerProtect Cyber Recovery with Unisys Stealth® solution.

Results and Benefits

- Prepared the entire school system to recover quickly from any ransomware attack
- Gained continuous improvement through machine learning and AI
- Achieved the ability to monitor backup data in the vault, receive reporting on potential malicious activity, take immediate action
- Stepped-up the security of the environment by cryptographically cloaking all cyber recovery data and systems

“We knew it was only a matter of time before we got hit by a ransomware disaster, and decided not to wait to become front page news to take action. Dell Technologies and Unisys deliver the best cyber recovery solution, highly secure and automated to set the standard for fast, clean, and secure recovery to minimize downtime.”
