

## HYBRID AND MULTI-CLOUD SERVICES

Accelerate Innovation and Business Value

### HIGHLIGHTS

- *Cloud that is responsive to your specific business needs*
- *Systems that improve over time*
- *Hybrid and multi-cloud that are secure and cost effective*

### Industry Challenge

Hybrid and multi-cloud systems are quickly becoming the norm. Yet too many organizations just aren't getting it right. 66% of organizations say the cloud has failed to deliver.\* Why? According to surveyed users, their cloud is:

- Not providing enough business value.
- Over budget.
- Too complex to operate and manage.
- Not secure.

Don't blame cloud...look for a better solution.

### Cloud Done Right

When hybrid and multi-cloud are done right, they can propel your business to new levels of revenue, market growth, and efficiency. Agile yet secure systems become the backbone for creative and productive innovations. New digital apps and processes drive productivity, customer satisfaction, and business insight. 'Cloud Done Right' means your systems are always aligned with your goals, including:

- Cloud that is responsive to your specific business needs.
- Systems that improve over time.
- Hybrid and multi-cloud that are secure and cost effective.

No matter what stage of cloud transformation you're in, it pays to trust the experts. Discover why Unisys maintains a 95% client retention rate, one of the highest net promoter scores in our industry, plus recognition from Gartner for vision and ability to execute.\*\*
