## Unisys Makes Debut on TIME's World's Best Companies 2025 List

**BLUE BELL, Pa., Sept. 16, 2025** – [Unisys](#) (NYSE: UIS) has been named to TIME Magazine's 2025 list of 1,000 [World's Best Companies](#) for the first time. This prestigious recognition highlights leading organizations from around the globe that exemplify excellence in today's corporate landscape.

Companies were acknowledged for outstanding performance in three areas: Employee Satisfaction, Revenue Growth and Sustainability Transparency. TIME's World's Best Companies list is presented annually by TIME and [Statista Inc.](#), a statistics portal and industry ranking provider.

"We are extremely proud to be celebrated as one of TIME's World's Best Companies in 2025," said Mike Thomson, chief executive officer, Unisys. "This recognition reflects our leadership's commitment to employee satisfaction, sustainability transparency, and growth — three areas where we continue to make meaningful progress. By empowering our employees through innovation and the use of emerging technologies, we're building a culture that drives long-term value for all our stakeholders ."

TIME's World's Best Companies for 2025 were chosen based on an administered independent survey conducted by Statista, covering a vast sample of roughly 200,000 employees in more than 50 countries. The project scope considered all companies that generated over \$100 million

of revenue in the last fiscal year. Employees were surveyed anonymously through various online panels, allowing opinions to be stated openly, without any influence from their employers. Out of hundreds of thousands of data points assessed, the top 1,000 companies were recognized for outstanding performance across the three key areas.

This most recent award follows closely after Unisys being named in June to [Newsweek's 2025 Global Top 100 Most Loved Workplaces®](#) and being listed as one of [Forbes America's Best Employers for Engineers List](#) in November 2024.
