News Release

Unisys Named a Leader in ISG's 2026 Public Sector Services and Solutions Provider Lens® Report

Unisys earns four Leader designations, including recognition in ISG's new AI and Innovation Services quadrant

BLUE BELL, Pa., Nov. 9, 2026 – Unisys (NYSE: UIS) has been named a Leader in the 2026 ISG Provider Lens® Public Sector Services and Solutions Report by Information Services Group (ISG), earning four Leader designations across the U.S., the U.K. and Australia. This year's report introduces the AI and Innovation Services quadrant, in which Unisys has been recognized as a Leader in both the U.S. and Australia. This acknowledgment highlights the company's leadership in secure, AI-driven public-sector transformation and its ability to modernize government operations through integrated digital, cloud, cybersecurity, and managed services.

ISG defines Leaders as organizations with a comprehensive portfolio of products and services, a strong market presence and well-established competitive strategies that position them to win business. This is the second year Unisys has been recognized as a Leader and the first year the U.S. has been included in the annual report, reflecting continued strength in secure, AI-enabled transformation across the public sector.

"Public sector organizations are navigating growing expectations to modernize services, strengthen security and deliver measurable value for their communities," said Chris Arrasmith, chief operating officer, Unisys. "Recognition across the U.S., U.K. and Australia reflects our AI-

first strategy and focus on helping clients address those priorities through secure, scalable technology solutions."

Unisys received four Leader designations across three quadrants:

- **AI and Innovation Services (new quadrant):** Recognized in the U.S. and Australia for secure AI operations, intelligent automation, and digital workplace solutions – such as the Unisys Agentic Service Desk – that enhance efficiency and service delivery in mission-critical environments.
- **Digital Transformation and Modernization Services:** In Australia, ISG cited Unisys' ability to modernize government agencies' infrastructure through secure digital transformation, cloud modernization and outcome-focused delivery.
- **Managed IT Services:** Recognized in the U.K. for its managed service operations that improve incident user support and operational efficiency.

"Unisys brings a rare combination of digital modernization, cybersecurity, AI, cloud and citizen experience to its public sector ventures," said Harish B., manager and principal analyst, ISG. "Its ability to connect secure technology with better constituent and workforce experiences makes Unisys a trusted catalyst for agencies seeking to modernize operations while strengthening efficiency, resilience and public trust."
