Disclaimer

Forward-Looking Statements

This presentation contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. Unisys cautions readers that the assumptions forming the basis for forward-looking statements include many factors that are beyond Unisys' ability to control or estimate precisely, such as estimates of future market conditions, fluctuations in foreign currency exchange rates, the behavior of other market participants and that TCV is based, in part, on the assumption that each of those contracts will continue for their full contracted term. Words such as "anticipates," "estimates," "expects," "projects," "may," "will," "intends," "plans," "believes," "should" and similar expressions may identify forward-looking statements and such forward-looking statements are made based upon management's current expectations, assumptions and beliefs as of this date concerning future developments and their potential effect upon Unisys. There can be no assurance that future developments will be in accordance with management's expectations, assumptions and beliefs or that the effect of future developments on Unisys will be those anticipated by management. Because actual results may differ materially from those expressed or implied by these forward-looking statements, we caution readers not to place undue reliance on these statements. Forward-looking statements in this presentation and the accompanying release include, but are not limited to, statements made in Mr. Thomson's and Ms. McCann's quotations, any projections or expectations of revenue growth, margin expansion, achievement of operational efficiencies and savings, effective use of technology, investments in our solutions and artificial intelligence adoption and innovation, TCV and New Business TCV, the impact of new logo signings, backlog, book-to-bill, full-year 2026 revenue growth and profitability guidance, including reported and constant currency revenue, growth and the foreign currency exchange rate assumptions underlying the translation of constant currency guidance to reported guidance, TS&S constant currency revenue growth, ClearPath revenue, non-GAAP operating profit margin, free cash flow generation and the assumptions and other expectations made in connection with our full-year 2026 financial guidance, the reduction of uncertainty and volatility of cash requirements, including pension contributions and the amount and timing of future pension settlements, our pension liability, debt extinguishment, future economic benefits from net operating losses and statements regarding future economic conditions or performance.

Additional information and factors that could cause actual results to differ materially from Unisys' expectations are contained in Unisys' filings with the U.S. Securities and Exchange Commission (SEC), including Unisys' Annual Reports on Form 10-K and subsequent Quarterly Reports on Form 10-Q, recent Current Reports on Form 8-K, and other SEC filings, which are available at the SEC's web site, http://www.sec.gov. Information included in this presentation is representative as of the date of this presentation only, and any forward-looking statement speaks only as of the date on which that statement is made. While Unisys periodically reassesses material trends and uncertainties affecting Unisys' results of operations and financial condition in connection with its preparation of management's discussion and analysis of results of operations and financial condition contained in its Quarterly and Annual Reports filed with the SEC, Unisys does not, by including this statement, assume any obligation to review, revise or update any forward-looking statement in light of future events or circumstances, except as required by applicable law.

Non-GAAP Information

This presentation includes certain non-GAAP financial measures that exclude certain items such as pension and postretirement expense; goodwill and intangible asset impairment charges, foreign exchange (gains) losses, debt extinguishment, certain legal and other matters related to professional services and legal fees, including legal defense costs, associated with certain legal proceedings; environmental matters related to previously disposed businesses; and cost-reduction activities and other expenses that the company believes are not indicative of its ongoing operations, as they may be unusual or non-recurring. The inclusion of such items in financial measures can make the company's profitability and liquidity results difficult to compare to prior periods or anticipated future periods and can distort the visibility of trends associated with the company's ongoing performance. Management also believes that non-GAAP measures are useful to investors because they provide supplemental information about the company's financial performance and liquidity, as well as greater transparency into management's view and assessment of the company's ongoing operating performance.

Non-GAAP financial measures are often provided and utilized by the company's management, analysts, and investors to enhance comparability of year-over-year results. These items are uncertain, depend on various factors, and could have a material impact on the company's GAAP results for the applicable period. These measures should not be relied upon as substitutes for, or considered in isolation from, measures calculated in accordance with U.S. GAAP. A reconciliation of these non-GAAP financial measures to the most directly comparable financial measures calculated and reported in accordance with GAAP can be found in the appendix of this presentation except for financial guidance and other forward-looking information since such a reconciliation is not practicable without unreasonable efforts as the company is unable to reasonably forecast certain amounts that are necessary for such reconciliation. This information has been provided pursuant to the requirements of SEC Regulation G.

3Q26 Financial Highlights

Revenue

Raising revenue guidance to a decline of (3.0%) to (1.5%) in constant currency (CC) or (0.4%) to 1.1% as reported. Prior guidance was a revenue decline of (5.0%) to (3.5%) in CC

Revenue increased 2.5% year-over-year (YoY) and 0.6% in CC, driven by growth in Technology Solutions & Services (TS&S)

2.6% YoY growth in TS&S or 0.9% in CC, above expectations due to incremental volume from new business at existing clients

ClearPath revenue was above expectations

Gross Margin

Gross margin expanded 120 basis points (bps) YoY to 26.7%, led by a higher software mix in ClearPath renewals

ClearPath gross margin reached 73.1%, up from 56.6% a year ago

TS&S gross margin increased 50 bps year-to-date to 18.5%, driven by delivery efficiency and higher-value solutions

Operating Profit & Free Cash Flow

Reaffirming 2026 full-year non-GAAP operating profit margin guidance of 9.0% to 11.0%

Operating profit margin of 5.0%. Non-GAAP operating profit margin of 7.2%, above expectations and up 180 bps YoY

Operating cash flow of ($36M) and free cash flow of ($58M) inclusive of ~$30M cash contributions to global pensions and ~$37M interest payments on the 2031 Senior Secured Notes

Estimated $30M to $40M improvement in the global net pension deficit from 2025 year-end

Sales Metrics

Total contract value (TCV) of $594M, up 43% YoY and 41% sequentially

Strong new business TCV of $221M, up 78% YoY and 15% sequentially

Trailing twelve months (TTM) book-to-bill for total company and TS&S of 1.2x and 1.3x, respectively, and backlog of $2.9B at quarter-end, up 3% YoY and 4% sequentially

Note: See Appendix for reconciliation of non-GAAP measures.

The Modern ClearPath® Ecosystem

Secure, scalable operating systems with the flexibility to enable enterprise AI workflows

Deployment Options

Today's CPF runs seamlessly in AWS and Azure, a private cloud, or on traditional integrated systems, future-proofing investments for evolving hybrid multi-cloud strategies of clients seeking to manage rising costs of compute driven by AI adoption

Private Cloud
VMware or bare-metal

Pre-integrated Systems
Unisys, on-prem, or co-lo hosted

Public Cloud
MS Azure or AWS

Value-added Solutions

Solutions designed to support contemporary application development as well as data sharing to and from the CPF environment, providing flexibility to power enterprise AI with the high-value client data generated on CPF platforms

ePortal

DataExchange

AB Suite®

CPF Ecosystem

Operating Environments

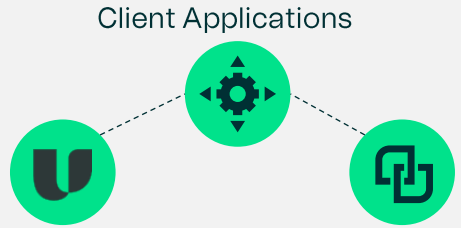

Providing unmatched security, scalability, and speed that is extremely difficult to replicate, especially given decades of client data and customization embedded in our platforms

CPF Operating Systems

- Secure, high-speed and volume compute environments
- Designed for mission-critical workloads
- Continuously adapting and expanding
- Certified to run wherever the client needs

Application Environment

Evolve and enhance applications with capabilities ranging from sophisticated data analysis to modern development environments to updated user experiences.

Services for Optimal Results

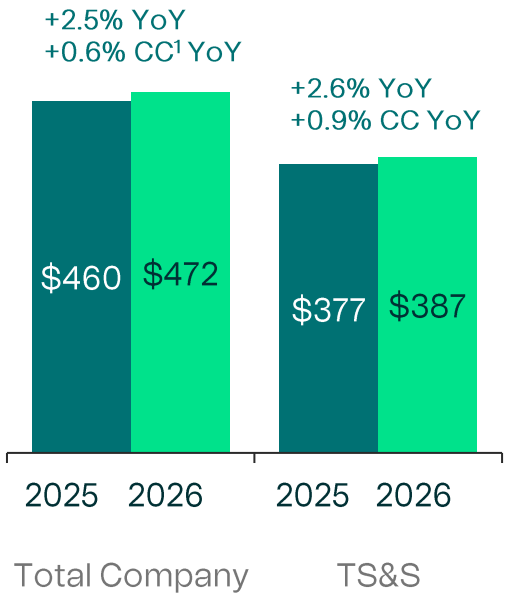

Enterprise experts maximize business outcomes through a comprehensive range of services from technical support to hosting and running client environments so clients know they can rely on CPF for decades to come.

ClearPath® Forward
Professional and Managed Services

3Q Revenue ($M)

COMPANY

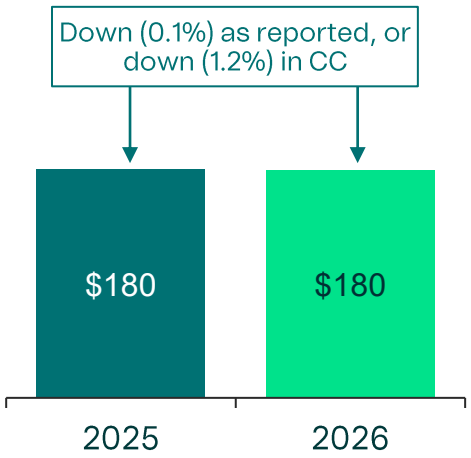

CC[1] revenue for total company was relatively flat. TS&S revenue growth was primarily driven by new business with existing clients, partially offset by lower volume from known client attrition

DWS

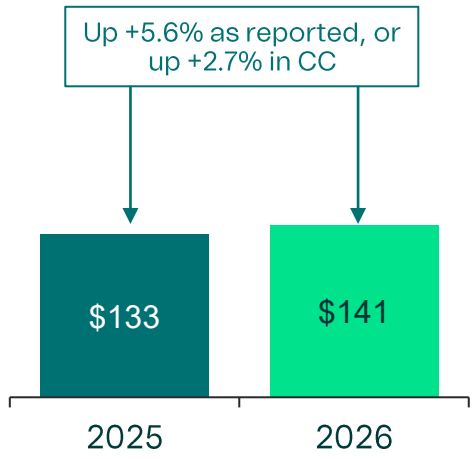

CC revenue growth primarily driven by higher hardware revenue

CA&I

CC revenue decline reflects client attrition partially offset by new business and higher volumes with existing clients

ECS

CC revenue growth primarily driven by higher specialized project work in business process solutions

[1] Refers to constant currency.

© 2026 UNISYS CORPORATION. ALL RIGHTS RESERVED.

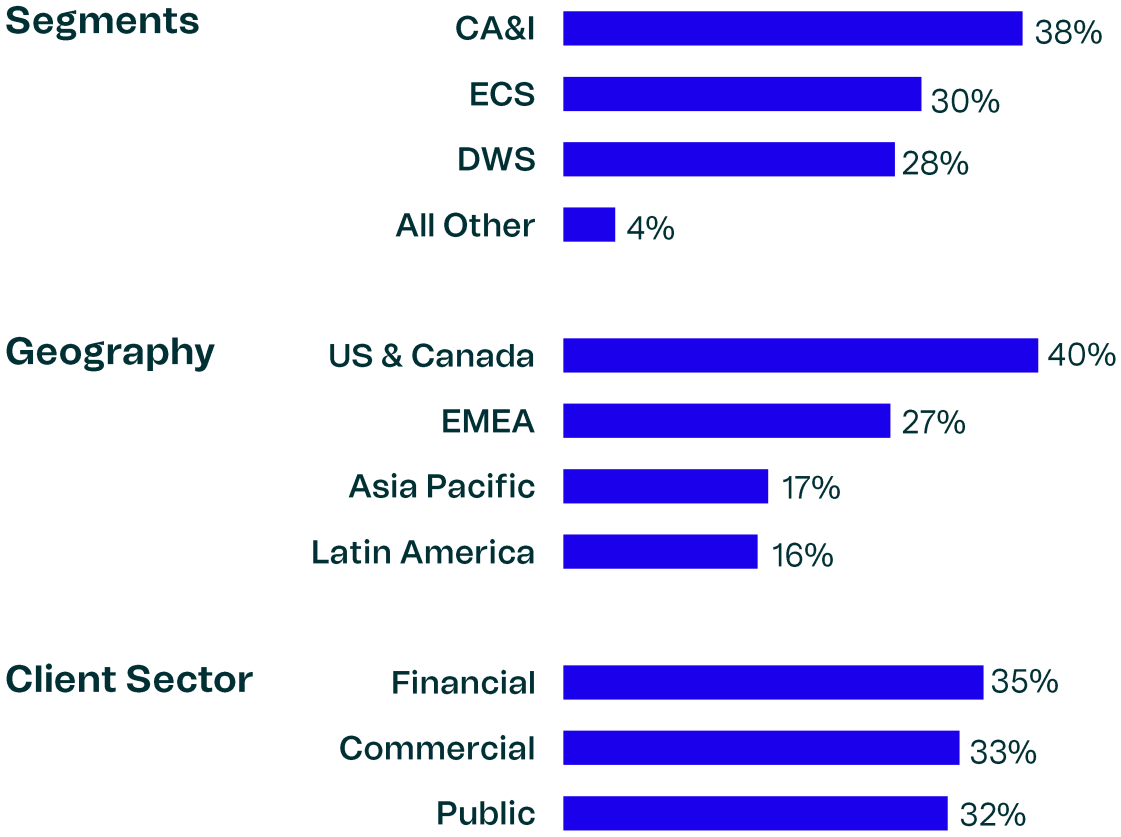

3Q 2026 Revenue Profile

Highly diverse revenue streams with large base of recurring revenue

18%
ClearPath Solutions

82%
TS&S Solutions

© 2026 UNISYS CORPORATION. ALL RIGHTS RESERVED.

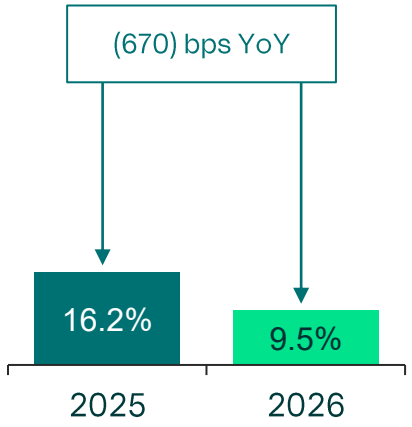

3Q Gross Margin

COMPANY

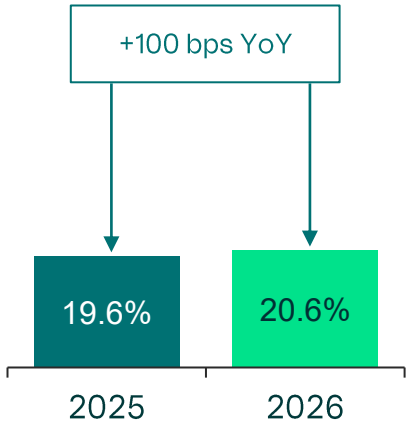

Total company margin expansion driven by a higher mix of software licenses relative to hardware within ClearPath renewals. TS&S margin contraction primarily driven by higher cost reduction charges

DWS

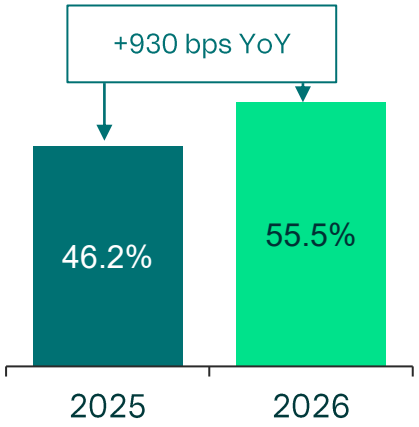

Margin contraction primarily due to known client attrition, and increased implementation and delivery costs including investments in Agentic Service Desk

CA&I

Margin expansion primarily driven by delivery improvements

ECS

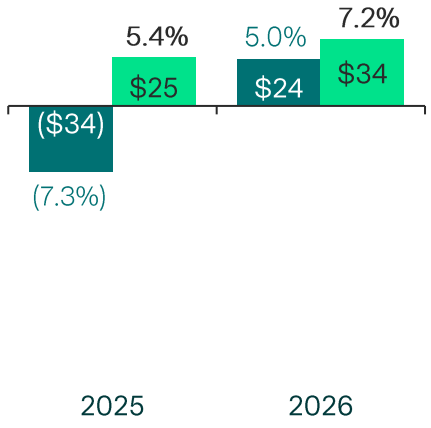

Margin expansion primarily driven by a higher mix of software licenses relative to hardware within ClearPath renewals

3Q Profitability and Free Cash Flow ($M, except per share data)

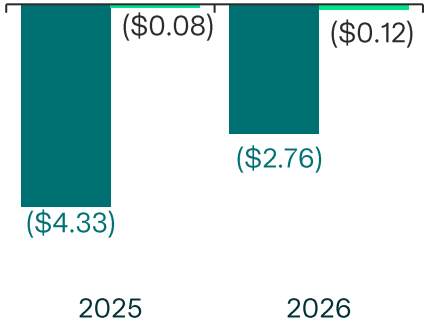

3Q GAAP & Non-GAAP[1] Operating Profit (Loss) & Margins

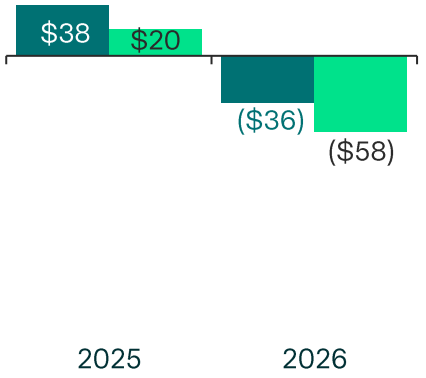

3Q GAAP Net Income (Loss) & Adj. EBITDA[1] and Margins

3Q GAAP & Non-GAAP[1] Diluted Earnings Per Share

3Q Operating Cash Flow & Free Cash Flow[1]

GAAP Operating Profit margin of 5.0%, up from (7.3%) in 3Q25 which included a non-cash charge of $55M; Non-GAAP Operating Margin of 7.2% exceeded expectations; GAAP net loss and diluted loss per share include impact of $151M non-cash settlement expense, net of tax, related to the annuity purchase transaction executed in 3Q which transferred ~$200M of pension liabilities to a third-party insurer as part of our pension removal strategy

3Q26 cash used for operations was impacted by the timing of cash interest payment associated with the 2031 Senior Secured Notes. 3Q25 included a one-time receipt of $25M related to a settled legal matter

GAAP | Non-GAAP[1]

Operating Cash Flow | Free Cash Flow[1]

[1] See Appendix for reconciliation of non-GAAP measures.

Leverage Detail

$M	SEPTEMBER 30, 2026
SENIOR SECURED NOTES[1]	$ 698.4
FINANCE LEASES AND OTHER DEBT	43.9
TOTAL DEBT EXCLUDING PENSION DEFICIT	**$ 742.3**
GLOBAL NET PENSION DEFICIT (AS OF DECEMBER 31, 2025)[2]	$448.5
TOTAL DEBT	**$ 1,190.8**
CASH	$264.2
NET LEVERAGE EXCLUDING PENSION DEFICIT	**$ 478.1**
NET LEVERAGE	**$ 926.6**
LTM ADJUSTED EBITDA	$ 288.4
NET LEVERAGE RATIO EXCLUDING PENSION DEFICIT	**1.7x**
NET LEVERAGE RATIO	**3.2x**

[1]Represents face value of debt. During the three months ended March 31, 2026, the company repurchased $1.6 million of the 2031 Notes from the open market for $1.4 million.

[2]Based on market conditions and our year-to-date pension contributions, we estimate that as of September 30th, our global pension deficit has improved by approximately $30 million to $40 million from 2025 year-end.

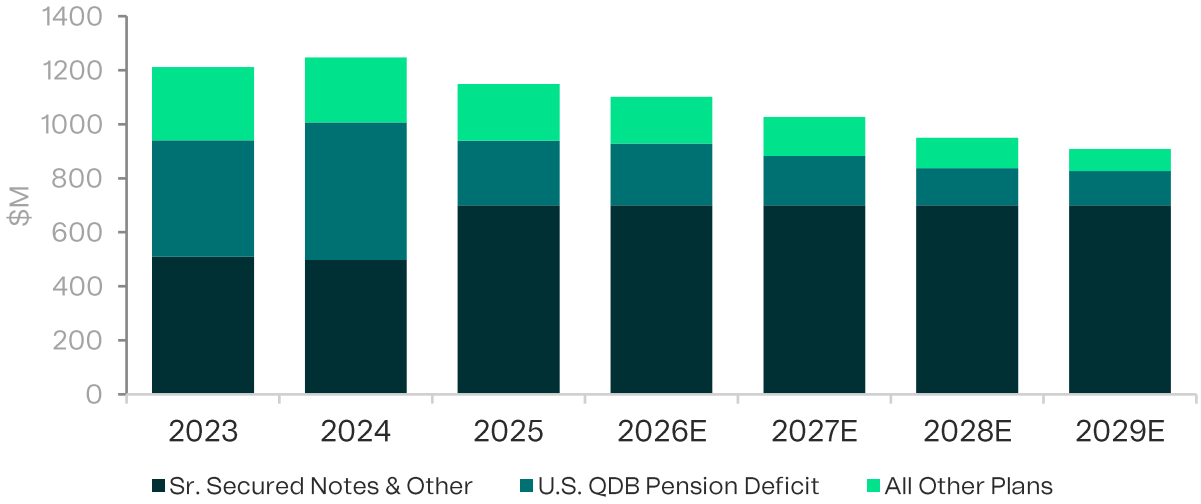

© 2026 UNISYS CORPORATION. ALL RIGHTS RESERVED.

Deleveraging as a core focus

Successful execution of our strategy **improves our leverage position**

Puts us in a position to fully remove the U.S. qualified defined benefit pension plans in 3-4 years

Pension contributions expected to translate to ~$200M+ of deficit reduction[1] from 2025 to year-end 2029

Targeting net leverage (including pension) reduction of at least one turn

FROM **3.2x** **September 30, 2026**

TO **~2.0x** **year-end 2029**

[1] Pension forecasts provided by the Company's actuary, WTW, as of 12/31/2025; assumptions reflect actual annuity purchase pricing for 2025 transaction and assumed 3% premium to US GAAP liabilities for 2026 annuity purchase; portion of liabilities may be removed using Lump Sum transaction; timing, size, and structure subject to market conditions. Deficit estimates are likely to change based on a number of factors including market conditions, actuarial assumptions changes in funding agreements, discount rates and currency rates.

Revising Financial Guidance

Full-Year 2026

Improving revenue growth
Reaffirming profitability

(3.0%) to (1.5%)

Raising from (5.0%) to (3.5%)
Constant Currency Revenue Growth

9.0% to 11.0%

Non-GAAP Operating Profit Margin

- Revenue growth guidance translates to reported revenue growth of (0.4%) to 1.1% based on exchange rates as of September 30, 2026
- Assumes reported ClearPath revenue of approximately $425 million
- Assumes TS&S constant currency revenue growth of (3.0%) to (1.0%)

Other 2026 Expectations

- Free cash flow of ~($25M)
- Capital expenditures of ~$85M
- Cash taxes of ~$70M
- Net interest payments of ~$70M
- Other payments, primarily restructuring, of ~$45M
- Pension and postretirement contributions of ~$100M

	TOTAL AVAILABLE	**$ 1,238**	**$ 4,477**
	VALUATION ALLOWANCE	(1,172)	
	TOTAL NET DEFERRED TAX ASSET	**$ 66**	

Note: The elements listed above are for informational purposes only and are based on expectations and assumptions defined in the Form 10-K filed for December 31, 2025. See Critical Accounting Policies – Income Taxes for the assessment of the realization of company's deferred tax assets and liabilities and Footnote 6 in 2025 Form 10-K filed in February 2026.
[1]Net Deferred Tax Assets represent the tax effected difference between the book and tax basis of assets and liabilities. Deferred tax assets represent future deductions against taxable income or a credit against a future income tax liability. Deferred tax liabilities represent taxable amounts in future years when the related asset or liability is recovered.
Valuation Allowance - US GAAP requires net deferred tax assets be reduced by a valuation allowance if it is more likely than not that some portion or the entire deferred tax asset will not be realized. The factors used to assess the likelihood of realization are the company's historical profitability, forecast of future taxable income and available tax-planning strategies that could be implemented to realize the net deferred tax assets. The company considers tax-planning strategies to realize or renew net deferred tax assets to avoid the potential loss of future tax benefits.

Definitions of Non-GAAP Financial Metrics

Non-GAAP operating profit – This measure excludes pretax pension and postretirement expense, pretax goodwill and intangible asset impairment charges and pretax charges or gains associated with certain legal matters related to settlements, professional services and legal fees, including legal defense costs, associated with certain legal proceedings, and cost-reduction activities and other expenses.

EBITDA & adjusted EBITDA – Earnings before interest, taxes, depreciation and amortization (EBITDA) is calculated by starting with net income (loss) attributable to Unisys Corporation common shareholders and adding or subtracting the following items: net income (loss) attributable to noncontrolling interests, interest expense (net of interest income), provision for (benefit from) income taxes, depreciation and amortization. Adjusted EBITDA further excludes pension and postretirement expense; goodwill and intangible asset impairment charges, foreign exchange (gains) losses, debt extinguishment, certain legal matters related to settlements, professional services and legal fees, including legal defense costs, associated with certain legal proceedings; environmental matters related to previously disposed businesses; cost reduction activities including workforce reduction actions, lease abandonment costs, asset impairment charges and other costs associated with exited operations and facilities; non-cash share-based expense; and other (income) expense adjustments.

Non-GAAP net income (loss) and non-GAAP diluted earnings (loss) per share – These measures exclude pension and postretirement expense and charges or (credits) in connection with goodwill and intangible asset impairment; foreign exchange (gains) losses, debt extinguishment, certain legal matters related to settlements, professional services and legal fees, including legal defense costs, associated with certain legal proceedings; environmental matters related to previously disposed businesses; and cost reduction activities including workforce reduction actions, lease abandonment costs, asset impairment charges and other costs associated with exited operations and facilities. The tax amounts related to these items for the calculation of non-GAAP diluted earnings (loss) per share include the current and deferred tax expense and benefits recognized under GAAP for these items.

Free cash flow – Represents cash flow from operations less capital expenditures.

Pre-pension and postretirement free cash flow (Pre-pension free cash flow) – Represents free cash flow before pension and postretirement contributions.

Adjusted free cash flow – Represents free cash flow less cash used for pension and postretirement funding; debt extinguishment, certain legal matters related to settlements, professional services and legal fees, including legal defense costs, associated with certain legal proceedings; environmental matters related to previously disposed businesses; and cost reduction activities and other payments.

Definitions of Other Metrics

ClearPath® – Represents software license and related support services, primarily ClearPath Forward®, within the company's ECS segment.

Technology Solutions & Services (TS&S) – These measures exclude revenue, gross profit and gross profit margin in connection with software license and support services within the company's ECS segment. The company provides these measures to allow investors to isolate the impact of software license renewals, which tend to be significant and impactful based on timing, and related support services in order to evaluate the company's business outside of these areas.

Constant currency – A significant amount of the company's revenue is derived from international operations. As a result, the company's revenue has been and will continue to be affected by changes in the U.S. dollar against major international currencies. The company refers to revenue growth rates in constant currency or on a constant currency basis so that the business results can be viewed without the impact of fluctuations in foreign currency exchange rates to facilitate comparisons of the company's business performance from one period to another. Constant currency is calculated by retranslating current and prior-period revenue at a consistent exchange rate rather than the actual exchange rates in effect during the respective periods.

Backlog – Represents the estimated amount of future revenue to be recognized under contracted work, which has not yet been delivered or performed. The company believes that actual revenue reflects the most relevant measure necessary to understand the company's results of operations, but backlog can be a useful metric and indicator of the company's estimate of contracted revenue to be realized in the future, subject to certain inherent limitations. The timing of conversion of backlog to revenue may be impacted by, among other factors, the timing of execution, the extension, nullification or early termination of existing contracts with or without penalty, adjustments to estimates in pricing or volumes for previously included contracts, seasonality and foreign currency exchange rates. Investors are cautioned that backlog should not be relied upon as a substitute for, or considered in isolation from, measures in accordance with GAAP.

Total Contract Value (TCV) – Represents the initial estimated revenue related to contracts signed in the period without regard for early termination or revenue recognition rules. Changes to contracts and scope are treated as TCV only to the extent of the incremental new value. New Business TCV represents TCV attributable to expansion and new scope for existing clients and new logo contracts. ClearPath TCV is driven by software license renewals, and as such, changes in timing or terms of renewals can lead to fluctuations from period to period. The company believes that actual revenue reflects the most relevant measure necessary to understand the company's results of operations, but TCV can be a useful leading indicator of the company's ability to generate future revenue over time, subject to certain inherent limitations. Measuring TCV involves the use of estimates and judgments and the extent and timing of conversion of TCV to revenue may be impacted by, among other factors, the types of services and solutions sold, contract duration, the pace of client spending, actual volumes of services delivered as compared to the volumes anticipated at the time of contract signing, and contract modifications, including, without limitation, contract nullification and termination, over the lifetime of a contract. Investors are cautioned that TCV should not be relied upon as a substitute for, or considered in isolation from, measures in accordance with GAAP.

Book-to-bill – Represents total contract value booked divided by revenue in a given period.

New Business – Represents expansion and new scope for existing clients and new logo contracts.
