Software is Confidential Information even if not marked. Unisys disclaims any liability relative to Licensee's personal data which may be entered into, accessed by, stored in, or otherwise used by the Software. Confidential Information may only be copied as authorized under this Agreement. Each party agrees to reproduce all notices on any copies. If Confidential Information is disclosed in intangible form, the disclosing party will identify the confidential nature of the information before disclosure and will provide a written description of that Confidential Information to the recipient within 20 days of the disclosure.

Unisys may remove these Tools at will and Licensee gives Unisys permission and access to Licensee's site to do so.

8. Dispute Resolution

Any claim or controversy relating to or arising out of this Agreement, whether in contract, in tort or otherwise, will be resolved on a confidential basis under the commercial mediation and arbitration rules of the American Arbitration Association according to the following process, by first delivering a written notice describing the dispute and the amount involved ("demand") to the other party: (a) **Mediation** - After receipt of a demand, either party may start mandatory non-binding mediation before a single mediator; (b) **Arbitration** - If the dispute remains unresolved 45 days after the receipt of the demand, either party may start binding arbitration before a single arbitrator. No statements by, or communications between, the parties during negotiation or mediation, or both, will be admissible for any purpose in arbitration. The arbitrator will have no authority to award punitive damages, and its decision must be consistent with this Agreement. Each party will pay its own expenses and attorney's fees. Either party may use a court of competent jurisdiction to (a) enforce an arbitration award; (b) seek temporary equitable relief to protect its interests; or (c) recover specific property, including an action in replevin. Licensee shall not obtain any similar information technology processing equipment, software or service from any third party following such termination notice to Unisys.
