STEALTH TRAINING SITE

ACCESSING YOUR COURSES

1. Upon approval of your course registration, you will receive an email (facsimile below) with how to access the Stealth training site.

2. The first login will require you to set your own password.

CLIENT INSTRUCTIONS FOR STEALTH TRAINING

- You will then be prompted to login (use your registered business email) and click **Next**.

Let's get started!

Email or login name
your.name@company.com

[Forgot login name](#)

Next

- Enter your password and click **Login**.

Password
.....

[Forgot Password?](#)

Login

- Next, you will be prompted for multi-factor authentication (MFA) to verify your account sign on.
- Check your email for the MFA 6-digit code and return to the login screen to enter the MFA code.
- You may select the option to remember your device and skip MFA on subsequent logins.
- Next, you'll be able to establish your skills listing on your home page. Select **Stealth Courseware** and click **Next**. (Note: *Welcome to Percipio content is not available on this site.*)

What skills would you like to build?

Choose a few skills you want to improve, and we'll give you recommendations to get started. Three is usually enough for good results. You can change your selections later.

CLIENT INSTRUCTIONS FOR STEALTH TRAINING

9. Select a **subject area** and click **Next**. You may have more than one option dependent on what courses you registered for online.
10. You may select any course visible on your home page (from the skill areas selected previously) to get started or at the top-left of the home page, click on **Library** menu, then select **Stealth Courseware**.

- a. If you registered for Stealth Introductory courses, select **Stealth v5 Introductory**.
- b. If you registered for any Stealth Technical course, select **Stealth v5 Technical Training**.

Note: If you did not register for any Stealth Technical course, you will only see the library option for the Stealth v5 Introductory courses.

CLIENT INSTRUCTIONS FOR STEALTH TRAINING

2. For *Stealth Introductory* courses, click on the appropriate course category icon.
3. To launch a course, click on the course title or *Watch* link.
4. To complete a course, you must either view the course in its entirety or pass its assessment.

The screenshot shows a course card for 'Unisys Stealth® v5.0 - 101'. On the left, there is a 'Components of Stealth(core) Solution' list with five items: 1 Management Server, 2 Authorization Service, 3 Certificates, 4 Stealth Endpoints, and 5 Secure Virtual Gateway and Smart Wire. A diagram shows the architecture with components like Clear Text, Smart Wire, Management Server, and Stealth Endpoints. The course title is 'Unisys Stealth® v5.0 - 101' with a callout 'Course Title (click to launch)'. Below the title, it says 'COURSE | 2h | Unisys Stealth Client Training'. A description follows: 'This course provides an entry-level overview of Unisys Stealth v5.0. This course assumes you have no prior knowledge or training with previous Stealth releases. In this course, you will learn about the main features, installation, hardware/software requireme...'. There is a 'View More' link and a status indicator 'Not Started' with a callout 'Status (Not Started, Started or Completed)'. A 'Watch' button with a callout 'click to launch' is at the bottom right.

5. For *Stealth Technical* courses, click on the appropriate course or certification category icon.
6. For an applicable track, click on **Explore** link, then launch the available course content (see step 4).
7. Round status indicators will display your current progress for each track and overall journey completion.

The screenshot shows a course page for 'Unisys Stealth® v5 Implementation and Maintenance'. The title is large and white on a dark blue background. Below the title, a progress indicator shows '14% complete'. A description reads: 'This journey provides presentation materials on how to install, configure and maintain a Stealth(core) v5 environment. You will get hands-on experience with installing and operating Stealth(core) v5 implementation. You must complete all sections, all lab exercises and pass the course ex...'. There is a 'View More' link and a play button icon with '7 items | 17h'. Below the main content, there is a 'Tracks' section. The first track is 'Introduction' with a '100% complete' indicator. Its description is 'This section provides introductory information on how to complete this series of courses and labs.' and it has '1 item | 15m'. The second track is 'Management Server Installation and Configuration' with a '0% complete' indicator. Its description is 'In this section you will learn how to install and prepare the Stealth Management Server.' and it has '1 item | 2h 30m'.
